OF LOUISIANA, Subject to the decision of the Whig National Convention.

TO THE PUBLIC

In a few days we shall have the pleasure of send-og out the NATIONAL WHIG in an entire new rees. The reading matter will be in a beautiful light face minion type, and the advertisem an equally elegant non-pareis. The press upon which we shall work the National Whig is one of A. B. Taylon's well-tried, double cylinder patent sir-spring presses, capable of throwing off 6000 be. The steam engine attached is not much larger

We have taken the large and commodious room side of Pennsylvania Avenue, between 3d and 44 streets and opposite Jackson Hall. The second story will be occupied by the Office of the National Whig d by a Free Reading Room; the third story by our printing establishment; the fourth as a Job printing office; and the fine rooms in the back building as Editorial Rooms. Altogether, this location is one of the most desirable locations in the city, and the facilities which it affords for the publication business are not to be excelled."

ents inserted in the NATIONAL WHIG are re d to bring them in as early as possible, in order that they may have the advantage of appearing in the first issue of the new paper. All other advertisers will also send in their favors without delay. We shall issue of the first number 5000 copies which will be circulated in the city of Washington and in

EURENA .- We have this publication. It requests us to notice it. We do so, and re quest that it will notice the National Whig in eturn, and give us credit for the List of Patents which it takes from us, and which we publish every week, with account of claims, &c. It is an official list, prepared expressly National Whig, at the Patent Office. The Eureka is a capital journal. It is admiably printed, and does the proprietors great We shall refer to it more particularly.

The wires will be ready for pulsation between Washington and Charleston by the 1st of De cember and about the same time between this place and New Orleans. Then, farewell to J. C. Riddle & Co.'s Express.

The good people of Richmond have of late been in a state of great excitement about the route the Louisa Railroad shall take westwardy. Public sentiment seems to incline in favor of the southern route. We should be pleased if the Richmond Whig or Republican will give a clear statement of the two routes and the progress of the controversy.

Harvests without Previous Sowing .- In the Schnellpost we find an account of a method of ompelling the wheat plant to become perrenial, like grass, and to perfect its grain annually without annual sowing of seed, which has Germany. It was discovered by a stewart of an estate named Kern. His method, after ploughing and manuring the land and sowing and break down the old political hobbies, upon it with summer or winter wheat, is to mow it in spring before the ear makes its appearance. This process is repeated several times in the season, and the product is used as hay. The plant is then allowed to grow and be cut in the ordinary manner. The next year it ripens earher and bears more abundantly than wheat Scott ought to insist on one stipulation in the Treated in the ordinary manner.
